**SUBJECT: Addendum # 2**

The above numbered solicitation is amended as set forth below. The hour and date specified for receipt of offers:

is not extended

is extended

**OFFERORS MUST ACKNOWLEDGE** receipt of this Addendum by one of the following methods:

- a. By acknowledgement of this Addendum on Submission Form submitted with the proposal;
- b. By referencing its receipt in your Transmittal Letter

If by virtue of this Addendum you desire to change a proposal already submitted, such change may be made by letter, provided it includes reference to the solicitation and this Addendum and is received prior to the due hour and date specified.

**DESCRIPTION OF ADDENDUM:**

Clarifications of 'Or-Equivalent' language included in the first addendum and answer to additional question received before the deadline.

Addendum # 1 Clarifications:

There will be no pre-bid review or approval of any products. The review of any alternative products will take place during the review of the bids by our technical staff. Allowance of the submission of alternative products does not guarantee approval or acceptance of those products. Approval or acceptance of any alternative or equal product is at the sole discretion of UOSA. All technical specifications included in the IFB must be met by any proposed media alternatives to the F300 product including the requirement that the product be of domestic origin.

Q&A:

Q - When do you anticipate your first order of each type of media requested?

A - We anticipate our first order of F300 type GAC to be approximately 100,000 lbs around the May-June 2021 time frame and we do not have an estimate of the quantities and time frame for our first odor control carbon order. This is an estimate only and may be subject to change.

*All other Terms, Conditions, Tables, Charts and Specifications, and Drawings not otherwise changed remain as originally stated or as shown.*
