### ABOUT THE ORGANIZATION

The Upper Occoquan Service Authority (UOSA) a regional water reclamation plant, has an opening for a **Mechanic I/II** in our Operations & Maintenance Division.

### RESPONSIBILITIES

The candidate will be responsible for performing skilled work in the installation, maintenance, and repair of heavy-duty sewage treatment facilities, mobile and special purpose equipment; performs other duties as assigned. Is required to be on call as scheduled. Is exposed to a wastewater biological and chemical hazardous environment and the hazards of rotating equipment.

The **Mechanic II** will perform a wide variety of skilled tasks in maintaining and repairing mobile, and special purpose equipment as well as sewage treatment equipment. Work requires the operation of machinery in addition to servicing, repairing and maintaining equipment. Assignments are received in the form of oral and written instruction which may be accompanied by blueprints, sketches, and simple diagrams. Works with limited direction of a Mechanic I or the supervision of the Mechanical Systems Manager or Lead Mechanic, who assigns and checks work for completeness.

The **Mechanic I** requires journeyman level experience with proficiency in performing tasks in a safe and efficient manner. Employees in this class are responsible for directing and participating in a variety of skilled tasks. Work requires the operation of machinery, but emphasis is upon servicing, repairing, and maintaining equipment. Work assignments are varied, and employees must be able to perform with skilled proficiency in several of the mechanical trades. Incumbents are expected to discover mechanical deficiencies and to eliminate defects. Work is performed under the supervision of the Mechanical Systems Manager or Lead Mechanic who assigns and checks work for completion. May provide direction over Mechanic II and III performing specific maintenance duties. Must be able to work independently and without direction and supervision in order to successfully complete assignments.

### REQUIREMENTS

- **Mechanic II:**
  - Completion of high school or GED is required. Some mechanical work experience and /or applicable trade school training is desired. Any equivalent combination of education, experience and training which provides the required knowledge, skills and abilities is acceptable.
  - A minimum of 2 years of experience at the Mechanic III level or 4 years of experience in mobile, vehicular, and industrial mechanical equipment maintenance and repair or related field is required.
