

## SOLE SOURCE RESOLUTION

**WHEREAS**, UOSA identified Infilco Degremont as a critical manufacturer during plant expansion under Contract 32; and

**WHEREAS**, UOSA has continued to utilize Suez (formerly Infilco Degremont) for purchase of climbing screens and associated parts for headworks reliability and standardization; and

**WHEREAS**, UOSA staff has determined that Suez has continued to have a proven performance record at UOSA; and

**WHEREAS**, UOSA staff has confirmed that a change to another manufacturer would require significant modifications to the headworks facility; and

**WHEREAS**, any change in manufacturers would require alternative experimental designs and overall significant cost increases due to Engineering work, designs, testing and procurement;

**WHEREAS**, based upon UOSA's investigation, there is only one source practicably available to provide the necessary screens and parts;

**NOW, THEREFORE, BE IT RESOLVED** by the Board of Directors of the Upper Occoquan Service Authority that because there is only one source practicably available, the sole source for award to Suez (formerly Infilco Degremont) is hereby approved for any purchases of these screens and parts for a period of ten years.

UPPER OCCOQUAN SERVICE AUTHORITY
