READY TO DEVELOP THE FUTURE OF WATER!

Trainee Operator	Grade 4	\$51,422 - \$82,275*
------------------	---------	----------------------

Open: September 26, 2025 ▪ Close: October 10, 2025

**DOE-Starting salary will be between minimum and midpoint in the range.*

ABOUT US

Are you passionate about making a difference and being a trusted steward of our most precious resource? UOSA is seeking a highly motivated and enthusiastic individual to join our team!

The **Upper Occoquan Service Authority (UOSA)** is a cutting-edge water recycling facility transforming the way the world thinks about sustainable water solutions. Established in 1978, UOSA serves Fairfax County, Prince William County, and the cities of Manassas and Manassas Park and is the first and longest-operated indirect potable reuse project in the United States. UOSA has been treating and reclaiming water for use as drinking water for nearly 50 years.

From being recognized as a **Utility of the Future** to pioneering advanced research and technology in the industry, our facility now recycles up to 54 million gallons of water per day. UOSA's efforts ensure a reliable supply of high-quality recycled water, contributing to the overall drinking water strategy for the Northern Virginia area.

If you are ready to be challenged in designing, optimizing, and revolutionizing water treatment systems, then take the next step in your career and apply today to be part of our dedicated team!

WHAT YOU'LL BE DOING

Water Quality Operators work 24/7/365 on assigned fixed shifts. New hires will work all shifts, transitioning to an assigned shift dependent upon the plant's need after 6 months. The Trainee Operator is trained to perform a wide range of tasks of one section (Liquid Team sections; including SRF and Conventional Treatment, Chemical Treatment, AWT Physical Treatment and Activated Carbon Regeneration Furnace; or Solids Team sections; which may include Presses and Trucks, Centrifuge, Dryer Field, Dryer Driver or Carbon Regeneration Furnace) of the facility. Work is performed alongside highly skilled UOSA employees and under the immediate supervision of a Water Quality Manager or experienced operator in accordance with the provisions of each section.

Responsibilities of the position include but is not limited to, operating and monitoring treatment equipment that may include pumps, motors, rake arms, etc., the use of process equipment for assigned sections, perform house-cleaning tasks on a regular basis, collect samples for lab analysis and perform tests on samples collected, collects and records data required for logbooks, troubleshoot malfunctioning equipment and writes maintenance work order requests.

WHO YOU ARE

Innovative Thinker: You embrace challenges and develop creative solutions that enhance water treatment processes

Purpose-Driven: You are committed to sustainability and take pride in contributing to the future of clean water

Collaborative Partner: You enjoy working alongside skilled professionals, sharing knowledge, and achieving success as a team
