READY TO ENGINEER THE FUTURE OF WATER!

Project Engineer	Grade 15	\$108,235 - \$173,177*
------------------	----------	------------------------

Open Until Filled

One position is available; filled based on candidate's qualifications. This role offers a competitive salary and benefits package, including a \$5,000 sign-on bonus. Starting salary will be between minimum and midpoint in the range.

ABOUT US

Are you passionate about making a difference and being a trusted steward of our most precious resource? UOSA is seeking a highly motivated, experienced, and enthusiastic project engineer to join our team!

The **Upper Occoquan Service Authority (UOSA)** is a cutting-edge water recycling facility transforming the way the world thinks about sustainable water solutions. Established in 1978, UOSA serves Fairfax County, Prince William County, and the cities of Manassas and Manassas Park and is the first and longest-operated indirect potable reuse project in the United States. UOSA has been treating and reclaiming water for use as drinking water for nearly 50 years.

From being recognized as a **Utility of the Future** to pioneering advanced research and technology in the industry, our facility now recycles up to 54 million gallons of water per day. UOSA's efforts ensure a reliable supply of high-quality recycled water, contributing to the overall drinking water strategy for the Northern Virginia area.

If you are an experienced project engineer and ready to be challenged managing design and construction of complex water treatment projects, then take the next step in your career and apply today to be part of our dedicated team!

WHAT YOU'LL BE DOING

As a Project Engineer I, you will be responsible for managing and supporting complex wastewater facilities and infrastructure projects. You will be responsible for all aspects of project management for design and construction of capital projects including scope development, permitting, coordination with procurement and operation teams, schedule conformance, quality assurance, record keeping, communication, safety, and reporting. Coordinating the work of other Engineers, Technicians, and Inspectors is required. Your work will be a critical component of UOSA's Vision to be globally recognized for its leadership in protecting the region's water resources.

WHO YOU ARE

Problem Solver: You will thrive on challenges and find creative solutions that push the boundaries of water recycling

Impact-Driven Engineer: You are passionate about water sustainability and want to make a difference

Team Player: You like to work collaboratively with operators, technicians, and leadership to achieve groundbreaking results

Tech-Savvy Innovator: You embrace the application of new technologies and understand the value of automation and artificial intelligence in advancing sustainable solutions

REQUIREMENTS

- Bachelor of Science Degree from an ABET-accredited four- year college or university in Civil Engineering, Environmental Engineering, or Construction Engineering Management, or any combination of education, experience, or training which provides the required knowledge, skills, and abilities.
- Minimum of 7 years of progressively responsible experience planning, designing, and constructing water or wastewater treatment and conveyance facilities.
- Engineer-in-Training (EIT) or Construction Management (CCM) certification is required.
- Professional Engineering license is preferred.
- Must be able to handle the physical requirements of the position, including extensive walking, bending, stooping, climbing stairs and ladders, and lifting/carrying up to 30 pounds.
- Possession of a vehicle operator's license valid in the Commonwealth of Virginia is required.

APPLICATION PROCESS:

The vacancy notice does not imply that these are the only duties, including essential duties, to be performed in the position. Please request a full job description from the HR Department via email at good.jobs@uosa.org.

All employment offers are contingent upon the successful completion of a pre-employment drug and alcohol screening, physical exam, and background check paid for by UOSA.

To be fully considered for the position, all applicants must submit a complete online application along with an updated resume via the UOSA website: Uosa.org/Careers > Candidate Profile.

*Once logged into your profile, click on **Find Jobs** in the upper left-hand corner of the screen, followed by **Search for Jobs**. Review the vacancy and apply for the position.*
