ABOUT US

Are you passionate about making a difference and being a trusted steward of our most precious resource? UOSA is seeking a highly motivated and enthusiastic individual to join our team!

The **Upper Occoquan Service Authority (UOSA)** is a cutting-edge water recycling facility transforming the way the world thinks about sustainable water solutions. Established in 1978, UOSA serves Fairfax County, Prince William County, and the cities of Manassas and Manassas Park and is the first and longest-operated indirect potable reuse project in the United States. UOSA has been treating and reclaiming water for use as drinking water for nearly 50 years.

From being recognized as a **Utility of the Future** to pioneering advanced research and technology in the industry, our facility now recycles up to 54 million gallons of water per day. UOSA's efforts ensure a reliable supply of high-quality recycled water, contributing to the overall drinking water strategy for the Northern Virginia area.

If you are ready to support an organization, then take the next step in your career and apply today to be part of our dedicated team!

RESPONSIBILITIES

The **Electrical Systems Technician I** performs highly skilled work on a wide variety of tasks involving industrial electrical, electro-mechanical and electronic equipment. Requires considerable skill and knowledge to perform the maintenance, repair, and installation work of electrical and electro-mechanical equipment as needed to maintain a modern Water Reclamation Plant and collection systems facilities. Works independently and is expected to solve both routine and most complex problems without guidance. Coordinates with and supports other sections and organizational functions as required.

The **Electrical Systems Technician II** performs the maintenance, repair, and installation work of electrical and electro-mechanical equipment as needed to maintain a modern Water Reclamation Plant and collection systems facilities. Works with limited supervision and is expected to solve routine problems without guidance. Coordinates with and supports other sections and organizational functions as required.

The incumbent will be exposed to a wastewater biological and chemical hazardous environment. May be exposed to medium voltage on occasion. Performs other work as assigned.
